Industrial Development Site

This high profile allotment in the heart of the Horsham Industrial Estate has a multitude of business uses or is an ideal future development site with excellent subdivisional potential (STCA). Boasting outstanding access for large vehicles the allotment enjoys high volumes of passing traffic with a massive 159m frontage frontage to Kenny Road and is complimented by rear access via the unconstructed Kendal Drive. With a current 'Industrial 1' zoning this 3.183ha site is located in a tightly held area with limited opportunities to secure suitable land for either occupation or future development.

\$500,000 Excl GST
